there is much change underway in american higher education new technologies are challenging the teaching practices of yesterday distance learning is lauded and private firms offer to certify the educational credentials that businesses and others will deem satisfactory in this new environment america s liberal arts colleges propound a quite different set of values their continuing faith in the liberal arts not as the nineteenth century chose to define them but as the twenty first century will be obliged to reconsider them is being tested distinctively american examines the american liberal arts college as an institution from its role in the lives of students to its value as a form of education it explores the threats faced by liberal arts colleges as well as the transformative role both positive and negative information technology will play in their future development and survival in the preface introducing the volume stephen graubard examines the history of the american liberal arts colleges from their early disdained reputations in comparison to european

schools to their slow rise to becoming world class universities this important volume explores the triumphs and challenges of one segment of the american higher educational universe it also addresses a larger question what ought this country be teaching its young the many millions who now throng its colleges and universities distinctively american is essential reading for all concerned with the future of higher education

will families be able and willing to pay the costs required for this type of education will the drift toward technical and professional studies doom colleges devoted to seemingly less practical study of the arts and sciences

a succinct and impassioned call to reimagine and revive the small liberal arts college by two veteran educators private liberal arts colleges have struggled for decades now as the covid 19 pandemic widens cracks latent in many american institutions they are facing a possibly mortal crisis in the post pandemic liberal arts college a manifesto for reinvention steven volk and beth benedix call for small colleges to seize this moment and reinvent themselves with the rise of rankings that set peer institutions against each other tuition that outpaces income creeping pre professionalism and a race to build student customers the splashiest new amenities many private liberal arts colleges have strayed from their founders missions if they could shed the mantle of exclusivity reduce costs facilitate true social mobility and collaborate with each other the authors argue they might both survive and again become just equitable accessible institutions able to offer the transformative and visionary education that is their hallmark educators students parents and anyone invested in the future of higher education should read this book

liberal arts colleges represent a tiny portion of the higher education market yet produce a stunning percentage of america s leaders but the demand for career related education has pressured them to become vocational distorting their mission and core values this book is a wake up call for everyone who values liberal arts education

experts discuss the disruptive changes faced by liberal arts colleges as one of the most successful educational enterprises in american history the residential liberal arts college has long been emulated across all spectrums of undergraduate education in the united states and increasingly around the world these schools are characterized by broad based curricula small class size and interaction between students and faculty aimed at developing students intellectual literacy and critical thinking skills rather than specific professional preparation the value proposition made by these colleges has recently come under intense pressure remaking college brings together a distinguished group of higher education leaders to define the american liberal arts model to describe the challenges these institutions face and to propose sustainable solutions these essays elucidate the shifting economic and financial models for liberal arts colleges and consider the opportunities afforded by technology globalism and intercollegiate cooperative models by exploring new ideas offering bold proposals and identifying emerging lessons the authors consider the unique position these schools can play in their communities and in the larger world

the long term impact of liberal arts education liberal arts colleges and liberal arts education new evidence on impacts ashe higher education report summarizes the impact of a liberal arts education on college students intellectual and personal growth based on data from a study covering 6 500 students at 40 institutions these findings reveal the elements of a liberal arts education that

best serve students in the long term as higher education faces increasing pressure to condense and narrow focus this book provides a cogent argument for keeping the liberal arts education alive

it is the purpose of this book to examine the ever changing meaning of the term liberal arts and to trace its development from antiquity to the present in doing so the text will compare and contrast the values of such an education with the other important objective of schools and colleges which is to prepare students with appropriate occupational training the book will highlight the arguments of both points of view in doing so attention will be paid to the contributions to society of those who have been exposed to a variety of educational curricula as part of the study the impact of the community college will be considered along with the impact of recent initiatives such as the nation at risk report no child left behind race to the top and the common core finally the text will conclude with an attempt to suggest the direction that will determine the fate of liberal arts in schools and colleges
