a sophisticated analysis of how the zionist understanding of the holocaust shaped the development of american jewish policies and political activism aaron berman takes a moderate and measured approach to one of the most emotional issues in american jewish historiography namely the response of american jews to nazism and the extermination of european jewry in remarkably large numbers american jews joined the zionist crusade to create a jewish state that would finally end the problem of jewish homelessness which they believed was the basic cause not only of the holocaust but of all anti semitism though american zionists could justly claim credit for the successful establishment of israel in 1948 this triumph was not without cost their insistence on including a demand for jewish statehood in any proposal to aid european jewry politicized the rescue issue and made it impossible to appeal for american aid on purely humanitarian grounds the american zionist response to nazism also shaped the political turmoil in the middle east which followed israel's creation concerned primarily with providing a home for jewish refugees and fearing british betrayal zionists could not understand arab protests in defense of their own national interests instead they responded to the arab revolt with armed force and sought to insure their own claim to palestine zionists came to link the arabs with the nazi and british forces that were opposed to the establishment of a jewish state in the thinking of american zionists the arabs were steadily transformed
